-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### DETAILED ACTION

1. Applicant's amendment filed July 17, 2005, and the arguments presented therewith have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, the arguments are moot in view of a new ground(s) of rejection. A non-final office action follows as below.

#### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1,2,7-11, and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by Yerman (5,240,320).

Yerman (5,240,320) discloses a transportable container comprising a container, a guide member 72,72 (Fig. 2) having at least two parallel guide rails on the rear and at least two parallel guide rails at the front portion, a connector member 32 operatively connected to and movable in the slotted track in each of the guide rails.

#### ***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 3-6,12-14, and 16-22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Yerman (5,240,320).

Art Unit: 3652

Yerman (5,240,320), as presented in section 3 above, shows a container having 5-7 feet high, 2-6 feet wide, and 2-3 feet deep, but does not show the structural dimensions such as the thickness of each rail, the distance between each slot, and other dimensions. However, it would have been obvious to those skilled in the art to optimize the desired structural dimensions on Yerman's transportable container (5,240,320) to provide a reliable container.

### ***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
